Expect Serious Effects U.S. Coal Embargo

Shipments Banned Over C.N.R. Lines

By The Canadian Press

Serious transportation bottlenecks, in a shortage of Maritime coal and a possible winter fuel shortage in the Toronto and other areas were the immediate prospects facing the country today following a United States decision to close an embargo on shipments of American coal into the Dominion by way of Canadian National Railways.

SEVERAL HOURS after the official announcement was made, Washington imposed the embargo, effective Wednesday midnight, a government spokesman in Ottawa indicated the immediate ramifications to American officials were being made on the angle that ODT had not been able to figure in estimating the number of their freight cars in Canada.

Hope that the government would

Polio in Alberta Rises to 13 Cases

Pollomelis in Alberta struck a blow Monday afternoon at the farthest north point it has reached in the province.

Reports were received by the department of public health that a year-old boy at McMurray was suffering from polio and had the disease. He is at present in quarantine in his home, but it is expected he will be brought to Edmonton for treatment.

This brings to 13 the total number of cases in Alberta.

U.S. "Gets Tough" On Price Violations

WASHINGTON, Aug. 12.—(UPI)—United States Attorney General Clark today announced a new "tough" policy in prosecuting any conspiracies to maintain or raise prices of food, clothing and housing.

He said he had instructed the Justice Department's antitrust division to seek criminal under criminal provisions of the anti-trust laws in an effort to combat price-fixing.

In a statement of policy, Clark said his department will recommend jail sentences for individuals who violate the antitrust laws against corporations in all convictions.

At Freight Hearing**Claim CNR Net Assets Largest Since 1927**

By Philip Lee

Edmonton Bulletin Ottawa Bureau

OTTAWA, Aug. 12.—Net current assets of the Canadian National Railways, amounting to \$46,698,000 as at Dec. 31, 1946, were the largest since 1927, the last pre-atomic war years. Col. Gen. S. Currie, witness for the Maritimes at the national freight inquiry, told the trans-

port board here Monday.

I Saw Today

Under THE examination of Hon. J. G. Thompson, minister for the Maritimes, Col. Currie quoted from an exhibit which showed that the system's net assets had increased by \$1,000,000 during the six war years, 1940-1945. However, for the four years preceding the war, the net assets had decreased \$32,381,000, or \$13,317,000 less than the 1946 figure. During the depression years, 1930-1939, the railways' assets averaged \$23,305,000 and in the eight years from 1921 to 1929, on the other hand, after accounting for write-offs such as 1927 when assets totalled \$54,476,000.

Col. Currie's exhibit also showed that the CNR's total investments, including property, sinking funds, capital and working capital, in affiliated companies and other investments totalled \$100,269,044 more than in 1938.

Canada's Great Crusader

Gerald Grattan McGee, KC, fighting senator and forward-looking mayor of Vancouver, died suddenly yesterday morning in his home city.

Like every strong character, Gerry McGee had devoted friends and just as devoted enemies. One either liked or disliked him very much. It was impossible to be indifferent to him. But either as friend or enemy, colleague or opponent, all were conscious of the vigor of his mind and the poetic strength of his imagination.

Indeed, the latter may have been his greatest asset, certainly his most distinguishing quality. For, as the late Arthur Brisbane used to say, "What man imagines, he can do." Gerry McGee had the satisfaction of seeing many of the finer creations of his imagination translated into living fact.

During a former term as mayor of Vancouver, in the time of depression, he raised money to build a new city hall costing a million dollars. The project was termed foolish and visionary. But he gave the entire community an emotional lift and started the momentum by which Vancouver later attained a great position in the national life of the country.

A fearless champion of monetary reform, Gerry McGee was responsible for making The Bank of Canada a truly national institution, owned wholly by the people.

With broad sympathies, he fought vigorously for an improvement in Old Age Pensions.

Elevated to the Senate, he brought a new life and color and energy to that somewhat stodgy chamber. Through that same restless imagination which gave Vancouver a new city hall when men said it could not be done, he enriched with interest and charged with significance any subject or any cause for which he fought.

As an orator, he had no superior in modern days. His words appealed both to the sentiments and to the intellect. For he possessed the rare faculty of combining the poetry of language with solid and substantial fact.

Gerry McGee was a great crusader. Fearlessly and impressively, he lashed the consciences of men that the inevitability of change might move in the direction of human betterment.

His untimely death is a tremendous loss to Canada. For even those who feared him will admit that he had become one of Canada's most vitalizing and useful institutions.

Beaches and Pulmots

Last Sunday a man was drowned at Alberta Beach and a pulmotor or respirator had to be rushed from Edmonton by motor car. By the time the device arrived at the scene of the accident, all hope of resuscitating this husband and father was gone.

One is moved to wonder that any popular beach should be without some equipment for giving prompt artificial respiration. Indeed, only laxity in this regard would permit these beaches to operate without this equipment close at hand.

Every week-end, between two thousand and five thousand Edmonton people flock to these beaches. This number is in addition to the regular residents and the holiday residents. Of this number, perhaps more than half venture into the water, many of them without adequate swimming experience.

With no pulmotor or respirator near at hand, every person who attempts to swim, even though he or she has a good knowledge of swimming, is in some jeopardy.

This is a matter that obviously calls for prompt and drastic action. If the law requires a pulmotor at popular beaches during the swimming season, any infraction of that law should be rigorously punished. If no such law exists, one should be enacted with the least possible delay.

Food Parcels to Britain

Captain F. E. Ellis of Halifax has demanded from his pupill the abolition of postage on food parcels to Britain. He declares:

"It is a poor state of affairs that we must pay heavy postage on food parcels to Britain and there should be an effort made to abolish the present postage rates on bona fide food parcels. The average domestic post in Canada receives a far better meat ration than do the children of England."

With this proposal the majority of Canadians will be in the heartiest accord.

For, as Canon Ellis further points out, Canadian farmers would not choose to feed their cattle the bread eaten by Britons and the average Canadian family wastes more

fruit in one week than English families receive in three months.

There can be no possible quarrel with these facts. And while many thousands of Canadians are already sending food parcels regularly to Britain, many more thousands cannot afford to send them because of the heavy postage rate.

It seems preposterous that a postage rate should stand between the abundance of Canada and the dire need of Britain. But it does stand there and men like Canon Ellis only echo the sentiments of millions of Canadians when they protest so vigorously against it.

It is perhaps an exalted hope that the post office department should agree to the sending of our parcels without any charge at all. But the charge could be appreciably lowered without affecting Canada's economy to any adverse degree.

It is not a legitimate argument to quote Canada's parcel rate in comparison with that of other countries. The rates of other countries do not enter into the situation at all. If Canada's rate were only half that of other countries and if it were preventing the sending of food parcels to Britain, it would stand too high.

Canada's parcel rate will continue to be too high so long as it militates against the transportation of Canada's plenty into the field of Britain's need.

Progress in the Air

Breaking all world records, William P. Odom of Roslyn, N.Y., succeeded over the last week-end, in circumnavigating the globe in the breath-taking time of 73 hours and five minutes. He flew 19,645 miles in 63 hours and 15 minutes of actual flying time. His average flying speed was 310.50 miles per hour.

Critics are already beginning to say that such men as Odom might employ their undoubted talents in a manner much more useful to the world, that these stunt flights are interesting but valueless.

One would have thought that their value had already been established. Certainly aviation would not have reached the high peak of efficiency that made it so effective in the war had these spectacular adventures not operated so freely in the earlier pre-war days.

For a great many of the flying devices, many of the structural improvements and new techniques of operation were developed by stunt flyers and their backers who were intent, in those days, only on the smashing of records.

Progress in the air has definitely been accelerated by just such exploits as this.

LIFE'S DARKEST MOMENTS

Smith on Yugoslavia

By ELMORE PHILPOTT

A protestant minister writes me from Salt Lake City to say: "A sizable opposition has been aroused in the urban, middle and upper classes whose economic status has been reduced by the splitting of Europe into two distinctly different zones is a bad thing."

He thinks that both sides in the conflict are to blame. I have seen a lot from watching the comparative working out of the Marshall plan and the Soviet plan.

Russia has been numerous warnings from reliable U.S. correspondents that eastern Europe is so far as making any comeback better comeback than that western Europe.

PHILPOTT

Coming from Greece, where no stone has been put on top of another since the war, it is astonishing to see Yugoslavia, a little village that had been reduced to rubble, repaired or rebuilt... it's true of Yugoslavia and it's about the only European country of which you can say that its reconstruction has finished. All that going on is now a construction.

HOWARD K. SMITH did a fine broadcast for the Columbia Broadcasting System on what he found in Vienna on July 27.

It gives both sides of the picture. Smith says, "I am not biased. I have seen the Communists in their hands. The civil service has been given a raw, thorough purge from top to bottom. The police commissioners I saw on my tour of 1500 miles were peasant boys from the ranks of the peasants. Their average age is 25 years. The Communists have ruthlessly dispossessed. In the white picture there is the trace of the former hold-ups, the secret police, the secret agents."

Smith compared what he found in Yugoslavia and Italy with what he found in Greece and Italy with what he found in Yugoslavia. "In Italy and Greece the black marksmen have been disbanded because it constitutes a new, although useless, industry to occupy thousands of ex-members. Government service seems to be synonymous with incompetence that has become a dogged form of rule."

Meanwhile, not far off the Western front, nations have entered into what is known as nationalization to decide what is to be done with what the former landlord class.

In the European struggle the British are slowly but surely winning out—in spite of the many carelessnesses of tactics that they make. The Germans are still in the game, but the British are building up their leadership as the former hold-ups, the secret police, the secret agents."

In Yugoslavia, the secret police are still in existence, but the rich and privileged—either to get back what they had lost, or to keep with them what would surely lose to the Communists—have fled.

I visited the picture is distinctly un-British. Government, government service, government with incompetence that has become a dogged form of rule.

HOWARD K. SMITH's opinion remote, like those of Mr. Harcourt, substantiate what I have been saying for years past in this column. What is to be done with the secret police? The British are building up their leadership as the former hold-ups, the secret police, the secret agents."

vive depends upon whether it is to be a moderate left or else the rich and privileged—either to get back what they had lost, or to keep with them what would surely lose to the Communists—have fled.

T. J. T.

Editor, Bulletin—Many people are still going away on holidays and through the courtesy of your column I would like to offer a friendly advice to those who are going to buy canaries for pets. These birds, unlike their sturdy little outdoor cage setting, are delicate creatures, and a nation's potential for progress depends on its subjective setting—the capacity of one to another to live in harmony with his environment, with his people constructively and the willingness of the people to work.

"In Yugoslavia, the secret police are still in existence, but the rich and privileged—either to get back what they had lost, or to keep with them what would surely lose to the Communists—have fled.

God gave us these birds, and I am sure we can keep them cheerful and happy, as long as their little cage life lasts.

The experience has been in Indonesia that the people refuse to sell their regular trades and occupations and have taken to the outside races and peoples.

United Nations is trying to make the situation better, but it is difficult to do in 2,000 years, and this without the full weight of enforcement of its decrees.

INDONESIAN CONFLICT

Editor, Bulletin—Although no one in this country is as familiar with Indonesia as is Mr. Harcourt (and his American friends) yet the decision to use force to maintain this way of life, which seeks to destroy it, but it depends on internal reformation rather than external intervention.

The experience has been in Indonesia that the people refuse to sell their regular trades and occupations and have taken to the outside races and peoples.

The most active taken by the Dutch troops in Indonesia is not directed against the Indonesian people, but against those very forces that have worked together in the past to bring about the independence of Indonesia.

This conflict is a typical case, in a difference between colonizer and colonized. Unfortunately there is as yet no world sheriff. The suggestion to ask an impartial judge is in the same vein as the suggestion to make concessions were imposed upon, will find support with the people.

The experience has been in Indonesia that the people refuse to sell their regular trades and occupations and have taken to the outside races and peoples.

It has proved that the people can be soothed by the threat of force, or by the threat of military invasion.

A NEW ERA

Editor, Bulletin—We have entered a new era in human civilization quite different in anything before, past precedents and sign posts are no guide, and because some of the things we are doing are unprecedented.

The big question for us, the free world, is how can we co-exist with the forces of evil, or how can we, by force, by bribery, or by threats, maintain this system of ours. In a word, will it be an alliance, and if so, what kind of alliance?

Whether our way of life will survive.

Planning vs. Nonplanning

By DOROTHY THOMPSON

treaties between states should be voided by UN vote.

THE UNITED STATES is hostile to colonial imperialism, and against the use of force to settle disputes between the great powers, has been instrumental in formulating a general concept and plan. Thus, Russia is building—by the presence of its army in the Balkans, for instance—and the United States and Balkan federations, two things which constructive minds long held to be desirable, have been ruthlessly dispossessed. Alberta's Golfers Take Third Place

Ontario's Team Again Captures Willingdon Cup

BOSCHATEL, Que., Aug. 12.—(CP)—Ontario's four-man team Monday successfully defended the Willingdon Cup, after a year's championship trophy, taking home the cup for the fourth year of successive play.

Eight golfers from teams including the New Brunswick—Prince Edward Island combination, competed. Manitoba was forced to drop out half way through the 36-hole play in the afternoon because of bad weather.

THE ONTARIO TEAM, almost to a man, were winners. The Willingdon Cup play had an agreeable medal score for the 36 holes at 84.5, while Alberta's 85.5 put the 1st Canadian in second place with 620.

Alberta, led by Henry Martindale of Edmonton, who starts out today in defense of his Canadian amateur championship game in three weeks, was the only team to have a slim lead at the nine-hole mark, but lost it to Ontario and also dropped out of contention when Ward Bennett, a team member,

had to withdraw.

The Ontario team, almost to a man, were winners. The Willingdon Cup play had an agreeable medal score for the 36 holes at 84.5, while Alberta's 85.5 put the 1st Canadian in second place with 620.

Martin Collingwood's North Side Legion soccer team last night for their sixth straight league conquest, Dave Gillings, brilliant center forward from the third division overseas, set the pace for the Legion brigade with four goals.

The Legion caught the airmen in the first half, then after wave of Legion attacks sped through the British defense and rolled in a 3-0 margin by half-time.

AFTER THE HURDLE, the RAF, all of whom have been on leave since early July, recovered quickly and scored two goals.

Both teams started too late to gain on the provincial champions.

Beside four healthy boots, collared and tucked in, and Bill Loftus,

WINNipeg, Aug. 12.—(CP)—Fort William Wonderer and Winnipeg Scottish will open their inter-provincial Dominion competition at the Hill Farm here Aug. 16. Manitoba Association officials announced to-day. The winner of the series would go to the western semi-finals against Edmonton North Side Legion.

As Ted Lewis, and Harry Skidmore of Edmonton, who starts out today in defense of his Canadian amateur championship game in three weeks, were the low medal scores of the day, 147.

High scores were attributed to eastern teams, who increased steadily and were whipping along the fairways, while the western teams had to fight for second place after 18 holes.

Quebec, runner-up last year at the Dominion, were the course, finishing fourth with 641.

The others in order were Nova Scotia, 648; New Brunswick-Prince Edward Island, 640; Saskatchewan, 638.

Alan Bowes of Winnipeg, came through with the low medal score of the day, 147.

High scores were attributed to eastern teams, who increased steadily and were whipping along the fairways, while the western teams had to fight for second place after 18 holes.

Rudy Horvath of Windsor, playing his second successive year on the course, was the top player among that four-man combination and also posted the best 18-hole score, 79, while the others in morning play, two under par. His medal score for the day was 147, five over par.

PHIL FARLEY of Toronto Scarborough, five Ontario amateur champions was one of the highest scorers with 150, 151; his 18-hole scores were 77-73.

The Royal Canadian Legion, who had organized the day, also represented that province at Edmonton last year, pulled itself from sixth place to fifth.

Jim Robertson of Vancouver Quigley was low-scorer for BC team, and was the top player of two rounds of 75, three over par.

THE ALBERTA TEAM, with Mac Miller showing the best 18-hole score, that an upset might be imminent and the Albertans would walk off with the championship Cup to the west. But they slipped in the afternoon, particularly Duane Barr of Calgary and Bill Good of Edmonton.

Barr, with a morning of 76, including a pair 25 on the first nine, took the lead with a total of 150, 151. Gostick, with 79 for his first tour, also had 93 in the second, 85 for 18, but 152.

Vernon Mohs of Edmonton has two rounds of 78, his 15th placing him five strokes away from the team leaders, Martel.

SASKATCHEWAN, in fifth place last year, dropped to the bottom of the pecking order. The members of last year's team, Gordon Beattie and Scotty Cameron of Regina, had to settle for 10th and 11th today with 161 and 162, respectively.

By winning yesterday Ontario took possession of the Willingdon Cup—first donated in 1937 by Lord Willingdon, then given to the Royal Canadian Legion, and now to the Legion.

Johnnie Mignot, the Legion headlines attention with his New York's surge, while Babe Ruth's home run record, the Philadelphia's Harry Walker continues to set a steady pace toward the National League batting crown.

Walker, shortening his swing to edge Eddie Gaedel's game, suddenly got to Adolph Melnyk in the ninth, but it wasn't until his brother walked in to catch fire and went to the plate, that he got his first hit.

Says:

It is a sad commentary on the human species to contemplate what happens to the emotions under the influence of money. It kicks to the wallet. Recently the tidings were conveyed to me that President Truman had signed the second tax bill. Why I like to hurt with indignation. How could they do that to ME?

How can it be that pain in the pocketbook. How it pricks and throbs and warps the reasonable workings of the mind? It is a sort of warm beating of the heart. Why I used to love that.

I had a soft spot for him because he was a good man, the game way he took over the house.

GALLICO nation at its darkest hour had struggled with them like a dog with a bone touched by his devotion to his family and his mother. And last night he had a pleasant phone call visiting and talking with him at the White House. I became additionally cheered by his application of courage and the effort and will that he brought to the tremendous job of administering the affairs of the country at home and abroad. A nice man, that Harry Truman, sincere and decent and upright. I liked him a lot.

Blight On Lore

How many times have I occurred ten seconds after he had vetoed the first tax bill. My mind accepted his veto message, but from the depths of my soul there came a low growl such as is emitted by a dog who takes a bone away from another. His power is a resilient muscle. It prefers hate. I warmed my affection for him again. He was probably right. It was too soon to cut taxes. I had managed to scrape through, just about, so far. Anxieties about the future were there. When the tax cut came along next January it would still be there. He had the right idea in doing to the best he could in a tough job, and don't be a pig. Gallico is a good man. Let's give him your help to help him care for you next year. Yes, sir, Harry's my man.

Bang came the second veto! No Tax cut Jan. 1. Out!

My dear! My dearest! What kind of a life is Harry's? And what kind of a film's passion was this anyway? It can't be the same as mine. It must stroke to the bank account? I was so sure that I loved Mr. Truman.

Switches Friends

He's still the same guy he was before, with all of the same virtues, though he has lost some of them as clearly anyone. When that tax cut came, I was going to get him to sign a paper to pay off my debts, begin to put a little something by. Oh, he had strayed in a wildcat spout that man! How the Senators! I see you get together and over-ride a little! You're the only friends I've got.

When that pain throbs in the pocket the brain cells fold up. I know it's a bad time, but it's a scratch, and wants it now. We're going to start all the dough we can scrounge, stop those oil flasks, and if we can't do it now with folding money, well have to go later with blood. Anybody can see what a State of Mind Co. are up to and that we don't pull them up short and beat them all the time. They'll be back. They will. So what's a couple of backs more or less? If we can't choke off the new, then the next generation? Only my right eye sees that. That's what upsets me about me and my fellow man.

Us Others' Cash

Old Have-Your-Cake-and-Eat-it Gallico is a good man, but he's at the firehouse. That cuts the Moscovies, but do it with somebody else's skin. I am surprised that he wanted to be fair that poor hearts Truman to figure out a way to tax us and buy the Russians off of us. You can see that the oil bus is getting kind of rickety and if the tax cut had gone through I could have put in my order for a new ...

Oh, all right, Boss. I guess I still have to pay off my Owowow! Oh! Oh! Oh! There goes again, that dreadful twinge in the pocket. That burning fever in the lung. How does one suffer from it?

Tram Fares Still in Doubt

Rate increase on the Edmonton Tramway system will be considered by an amateur motion before the city council Thursday night, it was decided Monday by aldermen who had overnight arrived and the agenda submitted was not completed.

It is in the opinion of the representatives of the Civic Improvement Alliance, the Edmonton Labor Council, and the Edmonton Community Council that opposition to the proposed increase in fares, and suggestion that the question be submitted to a plebiscite of all the voters.

It is also the opinion that revenue deficits on the transportation be met through the profits of the other four utilities, and also that consideration be given to a flat rate increase to meet the deficit.

Members of the delegations used to the effect that while the cost of living of the workers, these least fortunate in the community, and their families, are increasing, the same should be asked to shoulder a share of the deficits.

The commissioners sitting as an appeal board on assessments were dismissed by the court of Queen's Bench, and the counsel for the appellants that appeals would be made to the provincial assessment board. The appellants were George E. Haworth, building and lot at 13316 Ravine Drive, and Dorothy and Gladys Harley on Windsor Park property.

Commissioner appointed the attorney for A.H.E. Tait, former city mayor for the period Aug. 29 to Nov. 8.

The hearing was given to three by-laws covering local improvements in several sections of the city, the total of the improvements involved being \$24,561.6.

\$5 Wage Boost

Wage increases of \$5 monthly for male and \$4 monthly for female employees, and three cents an hour for hourly workers offered by a number of city business establishments, adding their support to the Canadian Legion's fund to aid the Farrier Family of the Legion, were approved Tuesday morning, according to officials in charge.

The commissioners were instructed to repeat this offer to other unions still negotiating, and council intimated it was not prepared to accept the demands of the commissioners to the accepting unions.

The payment of the increases to Union 22 will not start immediately and will be retroactive to January and the compensation demands for Union 22 will be met immediately. The commissioners offer to any of the four unions now seeking arbitration personally to be taken to the legion office on Jasper avenue.

Present Brief On Compensation Act

Brief of the Edmonton Chamber of Commerce to the legislative committee on the re-enactment of the Alberta Workmen's Compensation Act was presented Tuesday by W.J. Dick.

Pay Small Fines For Being Late

Members of the Workmen's Compensation Board have issued a reminder that members of the committee who arrive late for sittings are reminded of the value of punctuality and the fine for every time they are tardy.

When a member of the committee arrives late by Chairman Dr. Miller, he is to be excused by his committee to R.A. Anderson, committee secretary and clerk of the legislative assembly. Mr. Anderson has been given a fine of \$5.00.

Two members summoned for appearing late, were fined \$15 and costs for 21 days, while another who became involved in an accident while spending a great deal of time in the courtroom, was fined \$10. One other man paid a fine of \$5 and costs following his appearance in 1946 and had three convictions in 1946 and three more in 1947.

Other offenders, aged 26 years old, were given similar penalties. This was his second appearance this year.

London's Leading Designers Launch Week of Fall Showings

By GERRY HILL

LONDON, July 29 (UPI)—London's topflight dress designers launched a week of fall showings yesterday with Miss Elizabeth, their chief target and the first Queen of their chief inspiration.

Angela Delange, long time designer to the Duchess of Kent, tried to catch the royal bride eye with a collection of gowns featuring an wedding gown. Other costumes also reflected the ruffles, "vanner" pocket and lace edges of the 18th century queen.

The wedding gown was of white satin, patterned with hearts. It also had a train, which ended in ruffles, and it carried a six foot train. With it house showed a skull-dressed Elizabethan cap.

CHINESE inspirations received the dressing room two years ago, and were followed by an evening coat with true leg o'mutton sleeves, rounded shoulders and one-half inches from the floor.

All designs feature bows and one-half inches longer than last season, and cocktail dresses now have a belt and one-half inches from the floor.

A black moire cocktail dress was shown with a fur-trimmed belt, and a fur-trimmed belt and ruffled Elizabethan pockets.

Classic suits featured silk skirts, jackets tailored slightly than last season, and a silk blouse patterned with small bows.

Tweed sweater coats were shown with sailor and storm-tossed collars, and a belt and a bow.

Anglo spend about \$1,000,000,000 every year in the United States.

Two Sisters Meet in City After 27 Years of Separation

Mr. Ernest Meaden, 59, Mr. and Mrs. Davies and her sister, Mrs. D. L. Davies of Swaines, Wales, a town just west of the former home. Mrs. Davies and her two sons arrived in Edmonton during the weekend to visit Mr. and Mrs. Meaden. The sisters have not met for 27 years.

Evening Gowns of Plastic Resin

London, England—Elizabethan gowns, embroidered with virgin wool, crosses in Hartnell's autumn showing.

A designer with many royal wedding gowns to his credit stayed behind the scenes and directed the show. His answer to all inquiries about the royal trouser suit was "I don't know."

Heavy evening gowns had heavy embroidery, the bust with emblazoned jeweled crosses on cyclamen-colored top worn over a net gown.

The famous Hartnell suits were featured in more of the general wear, including a white organza evening coat with true leg o'mutton sleeves, rounded shoulders and one-half inches from the floor.

30 Countries Represented

By KAY REE

TORONTO, Aug. 11 (CDN)—Delegates from Brazil, India, Portugal, Spain, Italy, France, Russia, Thailand, and Australia will all have been a part of the world's annual meeting of the International Organization of University Women, which opened yesterday, together with the 10th anniversary of the organization.

Dr. and Mrs. A. L. Washburn of Weston, Que., and Mr. and Mrs. A. J. Baster, of Ottawa, are marking the 10th anniversary and faraway India, are represented.

From India comes Miss Elsie Wilson, professor of English at a women's college in Bombay, Her soft British accent almost belies the hard-boiled Indian she has adopted.

"The university women are holding key positions in the government," said Miss Nanavuty, referring to Dr. S. R. Venkayya, permanent Amit, India's representative on the United Nations Educational, Scientific and Cultural Organization, who minister health in one of the provinces.

The conference officially starts today, with Dr. J. W. Adamowicz, of Warsaw, International president, will give the opening address.

Other speakers will include Mrs. Richard Crumley of Vancouver, president of the Canadian Association of University Women, Senator William Wilson, Senator Catherina Frost, and Senator Cairine Wilson who will represent the federal government.

This meeting, running Monday through a weekend, will be held in one of three countries.

In compliance with its original purpose, the bridegroom of Timorous Beaver, Alfred Aldridge entertained a miscellaneous shower at his home recently. Gifts were presented by Mrs. Fraser in a decorated basket.

Reviewed IFUW relations with other international bodies. One of eight international women's organizations, the IFUW is affiliated with the United Nations, was represented at the Paris, of which it is a member, getting on a temporary council for educational rehabilitation.

Miss J. M. Bowie of London Eng., convenor of the special Eng., convened a meeting to review the terms of references and the work of the standing committees.

Mr. and Mrs. J. W. Duke and their daughters, the Misses Margaret and Audrey Duke, left this week for a motor trip to the Pacific coast.

Some of the Czechoslovak boys said they expected to find the camp and the people there they were welcomed with open arms.

One 17-year-old Czechoslovak boy said:

"We've learned a new kind of international unity here. We were taught to look for politeness unity between nations. Here, nations just don't matter. There is a higher understanding between people—not countries. Every boy is just a boy to every other boy."

Andrew Johnson, 17th president of the United States, was appointed to a tailor at the age of 10.
